SERIES

## memoria

• technical data

With a reference to Art Decò, revisited in a more modern and chic key, this collection of pendant lamps is the representation of International style and Italian preciousness. Available in single and multiple, as well as in circular and linear versions, Memoria can gain additional exclusivity playing with the volumes of its elements and the different shades of glass diffusers: transparent or metalized in gold, chrome and copper, combined with cables of the same color, coated with metal braid. The “trans-mirror” effect, obtained with the metalized diffusers, enhances the charm of the lamp creating sophisticated transparencies when the light is on. The version with the transparent diffuser, instead, contains within it a bright ball in blown glass, a witness of the attention to detail, that is a typical element of the brand. The entire collection uses LED sources.

TYPE:

PROJECT NAME:

**Frame:** matt white metal, with details in chrome, gold and copper.

**Diffuser:** glass in transparent, chrome, gold and copper, in various combinations.

### PENDANT LAMPS (STANDARD CABLE CM 200)

**MEMORIA S1**

4.6W 440 Lm 3000K Cri>80 500 mA LED

IP 20 3 EAC

**MEMORIA S2**

4.6W 440 Lm 3000K Cri>80 500 mA LED

IP 20 3 EAC

**MEMORIA C1**

4.6W 440 Lm 3000K Cri>80 500 mA LED

IP 20 3 EAC

**MEMORIA C2**

4.6W 440 Lm 3000K Cri>80 500 mA LED

IP 20 3 EAC
