

SYMPHONY™

SUSPENSION

symphony

technical data

More musicians together can create something that goes beyond the possibility of a single instrument: a symphony. In the same way, the trumpet-shaped diffusers create a new shape: a sphere. Precisely like instruments in a big orchestra, each element of this lamp contributes to this spherical effect. The sphere exists only because the eye perceives it, thanks to the fact that all the elements "play" together, as different instruments of a big orchestra.

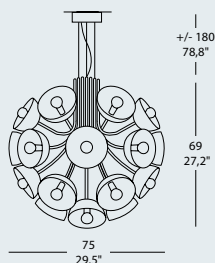

Through a vintage inspiration, Symphony produces exclusive aesthetic vibrations in which each note is in harmony with the others.

Frame: chromed or white polished finish or black polished finish metal.

Diffuser: chrome outside diffuser with white polish finish inside diffuser; total white polished; polished white outside diffuser with silver leaf, gold leaf inside diffuser; polished black outside diffuser with silver leaf, gold leaf or white inside diffuser.
