

KEIREI™

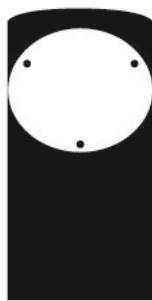

S78Y1B1/C1 BOLLARD

TYPE:

PROJECT NAME:

Mysteriously and unconventionally charming lamps, Keirei are like a bow in a sign of respect towards the environment. The collection takes its name (Keirei = bow) as a tribute to the greeting ritual belonging to the Oriental Cultures, which is manifested through the folded cast iron structure of the lamp and shines a beam of light downwards in respect to the environment. The strong and resistant material gives a clean and essential form to the lamps that appear in the outdoor space as if they are textured sharp signs.
