ARBOLA™

SUSPENSION

TYPE:

PROJECT NAME:

Description

Arbola is constructed from spheres of American walnut wood - rich in texture, tone, and natural character. It is a modular lighting concept available in different sizes depending on the number of elements.

The grain, rings and warm colour make each lamp truly one of a kind. An exploration of material and light – an organic, tactile presence that brings interiors to life.

Light Source

6W LED, ~3000K, dimmable

Dimensions

Each individual sphere is Ø9cm (3.54")

Arbola 1 sphere: Ø9cm (3.54") x 9cm (3.54") tall

Arbola 2 spheres: Ø9cm (3.54") x 18cm (7.08") tall

Arbola 3 spheres: Ø9cm (3.54") x 27cm (10.62") tall

Arbola 4 spheres: Ø9cm (3.54") x 36cm (14.17") tall

Each fixture includes a 120cm (47.24") black cable

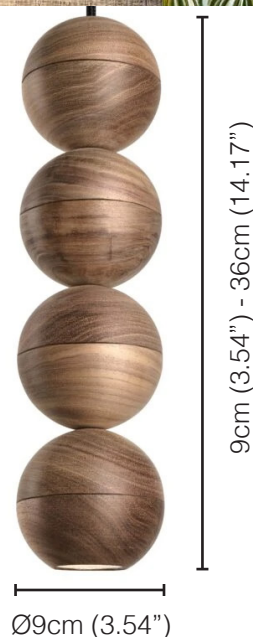

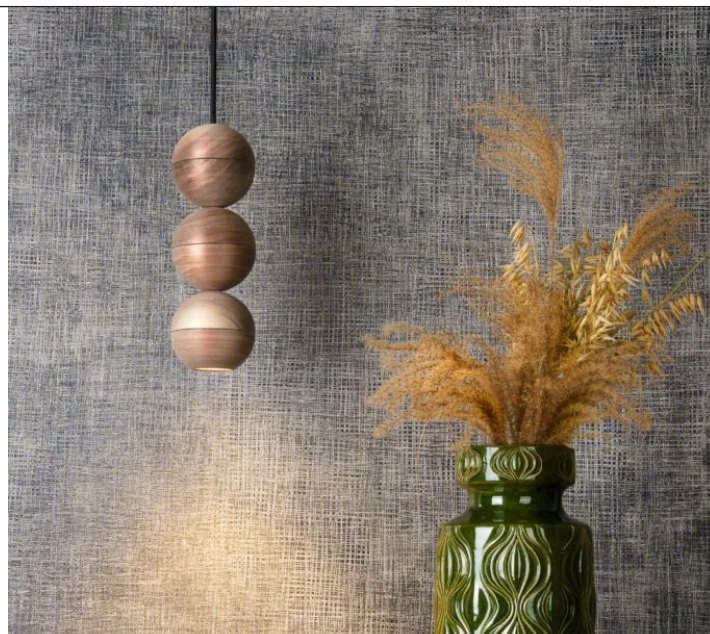

Materials

Solid walnut wood, silicone cable, steel canopy, optional glass spheres

Finish Options

Standard finish for Arbola spheres is smooth polished American walnut wood.

An optional finish of sandblasted OptiWhite glass is also available and can replace individual Arbola spheres.
