SPECIFICATION SHEET

CELESTIA™

SUSPENSION

TYPE:

PROJECT NAME:

Description

An avant-garde lighting form inspired by the cosmic order of stars. Its slender silhouette and diffused glow evoke the trails of falling comets. Metal mesh and aluminum create a light, modern structure suspended in space. As a solo piece, it draws the eye — in multiples, it forms luminous constellations that add pulse and depth to the interior. Light as architectural form — suspended in motion.

Light Source

24W LED, ~3000K, dimmable, CRI 90

Dimensions

Celestia 107: Ø 10 cm (3.93"), height 107 cm (42.12")
Celestia 145: Ø 10 cm (3.93"), height 145 cm (57.08")
Celestia 183: Ø 10 cm (3.93"), height 183 cm (72.04")

Materials

Aluminum

Finish Options

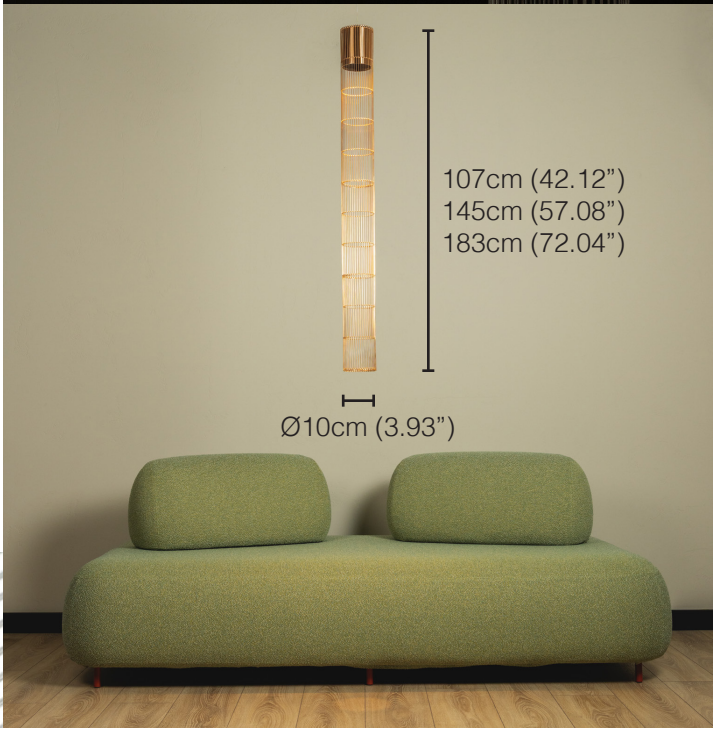

Brass

Phosphor Bronze

Stainless Steel
