LIGHTHOUSE™

SUSPENSION

TYPE:

PROJECT NAME:

Description

The Lighthouse pendant is distinguished by two contrasting materials – aluminum and glass, which together create a minimalist form based on three wheels.

The main wheel, made of powder-coated aluminum, is supported on a sandblasted glass flange and closed at the bottom with a glass wheel. The use of wheels of different diameters gives the lamp a distinct, geometric form. Two long aluminum studs crown both sides of the fixture.

Light Source

24W LED, ~3000K, dimmable

Dimensions

Lighthouse 32: Ø32cm (12.6"), height 19cm (7.48")

Lighthouse 47: Ø47cm (18.5"), height 19cm (7.48")

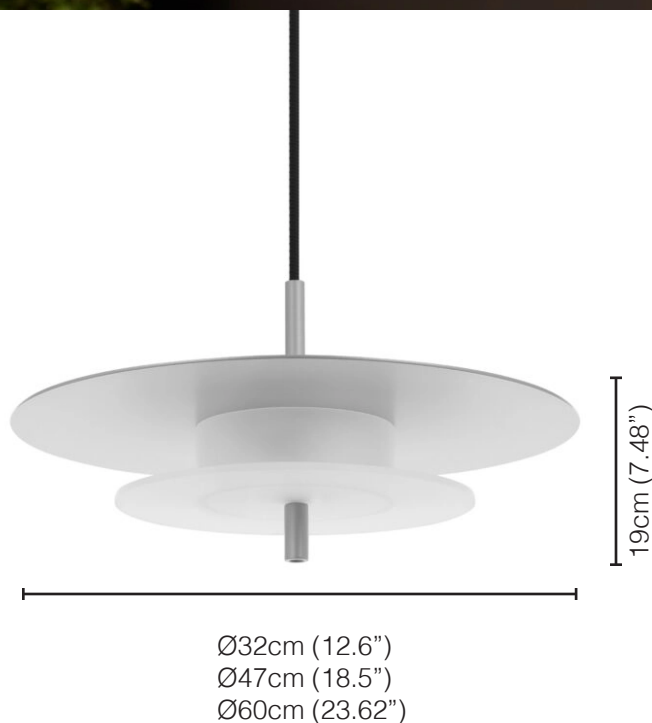

Lighthouse 60: Ø60cm (23.62"), height 19cm (7.48")

Materials

Aluminum and Glass
